

Environmental Impairment Liability Appetite

Any business dealing with pollutants, including chemicals, oil, or fuel, or handling waste products, is at risk of causing a pollution incident. EIL insurance would benefit these businesses by providing protection from the high costs involved with cleaning up a pollution incident.

Our policy is designed to cover environmental exposure for the following types of businesses:

- Manufacturing
- Transportation
- Warehousing
- Property developers
- Property owners
- Motor trade
- Chemical plants

Contractor risks:

- Builders
- Heating engineers
- Electrical contractors
